

Students have the power to build a more united world!

Students Rebuild, a program of Creative Visions, inspires young people ages 5 to 25 to engage with our world's most pressing issues and channel their creativity through various artistic mediums to create meaningful change. This year, we are inviting youth around the globe to participate in Unique & United.

Why Unique & United?

In a world facing division, uncertainty, and rapid change, young people seek ways to understand themselves and connect with others. Through creative action, your students can explore their identities, celebrate their differences, and share their vision for a more united world.

Creative mediums:

Literary Arts: Short stories, essays, and poetry

Visual Arts: Graphic design, drawings, paintings, photography, and memes

Performing Arts: Dance, theater, and music

Media Arts: PSAs, film, and video

STEM: Robotics, digital design, and games

HOW TO PARTICIPATE:

- 1. Learn:** Explore resources like lesson plans, book lists, and videos to help students reflect on their unique identity, discover how they're more alike than different, and deepen their understanding of how our shared humanity can bring people together.
- 2. Create:** Create a team and encourage your students to choose from a variety of mediums and express their vision for a more united world.
- 3. Share:** Submit students' creative works to help support organizations that foster connection and champion collaborative change. Creative Visions will donate 5 dollars, and up to 1 million, for each submission or student engaged.

DEADLINE TO SUBMIT: JUNE 1, 2026
