

Students' creativity can help protect the planet!

Students Rebuild, a program of Creative Visions, inspires young people ages 5 to 25 to engage with our world's most pressing issues and channel their creativity through various artistic mediums to create meaningful change. This year, we are inviting youth around the globe to participate in Protect Our Planet.

Why Protect Our Planet?

The air, land, and water around us are changing — and young people are noticing. They're asking questions, making observations, and trying to understand what these changes mean for their world. But knowing what to do with that awareness can be harder.

Protect Our Planet invites young people to explore the air, land, and water around them and use creativity to share their stories and ideas for a thriving planet.

Creative Mediums:

Literary Arts: Short stories, essays, and poetry

Visual Arts: Graphic design, drawings, paintings, photography, and memes

Performing Arts: Dance, theater, and music

Media Arts: PSAs, film, and video

STEM: Robotics, digital design, and games

How To Join:

1. **Sign Up:** Register your class or group for the Protect Our Planet Project at studentsrebuild.org.
2. **Explore:** Use our ready-made lesson plans and activity guides to help students explore air, land, and water and discover hands-on ways to protect our planet.
3. **Create:** Invite students to express their vision for a thriving planet through any medium.
4. **Share:** [Log in](#) to your Students Rebuild account and submit your class or group's creative work.
5. **Impact:** For each submission or student engaged, Creative Visions donates \$5, up to \$1 million, to partner organizations that protect our planet.

Deadline To Submit: June 1, 2027
